

## On-Water Workhorse

The 2300 CC is the ideal boat for a wide range of Law Enforcement, Fire/Rescue and Workboat applications.

The 2300 CC is an easily trailerable craft with a center console design allowing 360 degree access over the sides. An ideal light coastal and/or inland craft with a moderate Deep V hull and large open cockpit, the 2300 CC performs well with either two or four stroke power.

Easily handled by a single operator, the 2300 has outstanding visibility from the helm and offers easy access over the bow. Multiple storage compartments allow for the stowage of a large amount of gear and equipment.

The 2300 CC comes with an extensive complement of standard equipment and has a long list of options to include law enforcement equipment, dive door, electronics, towing gear and much, much more.

## Available with Evinrude, Honda, Mercury, Suzuki & Yamaha

## Simple, Rugged, Reliable™

The 2300 CC and all Pro-Line craft manufactured by the AMH Government Services group are designed to be simple, rugged and reliable. Construction of these low maintenance, well performing craft begins with a hull manufactured using F.I.S.T. - Fiberglass Integrated Structural Technology. F.I.S.T. hulls are completely wood free and utilize fiberglass and high density closed cell foam coring. This results in an exceptionally strong hull with no potential for wood rot.

F.I.S.T. hull construction, practical designs and quality hardware and components are the reasons Pro-Line is the favorite of commercial and government professionals who require a quality, no-frills boat. The AMH Government Services group has designed the 2300 CC to provide operators with the safest and most capable craft possible for some of the most demanding work on the water.

Contact an AMH Government Services representative today and begin the process of designing a 2300 CC for your team.

## AMH GOVERNMENT SERVICES

AMH Government Services is a sister company of Fountain Powerboats, Donzi Marine and Pro-Line Boats. The AMH Government Services group is responsible for the engineering, production, sales and support of Donzi, Pro-Line and Fountain craft customized for government and commercial applications. These commercially available off-the-shelf craft are offered directly to government and commercial customers.

AMH Government Services is an equal opportunity employer with a diverse staff capable of producing more than 2,500 boats per year for both the recreational and government markets. From backwaters, to ports, offshore and on the high-seas, AMH Government Services has a wide range of Workboat, Law Enforcement, Dive/Rescue, Military & Special Operations craft to meet the demanding needs of government and commercial professionals.

All weights, fuel capacities and other specifications are approximate and may vary. Specifications are for base boat configurations and do not include optional equipment. Specifications are subject to change without notice. AMH reserves the right to modify or discontinue models, equipment or prices at any time without incurring obligation.
